Topic

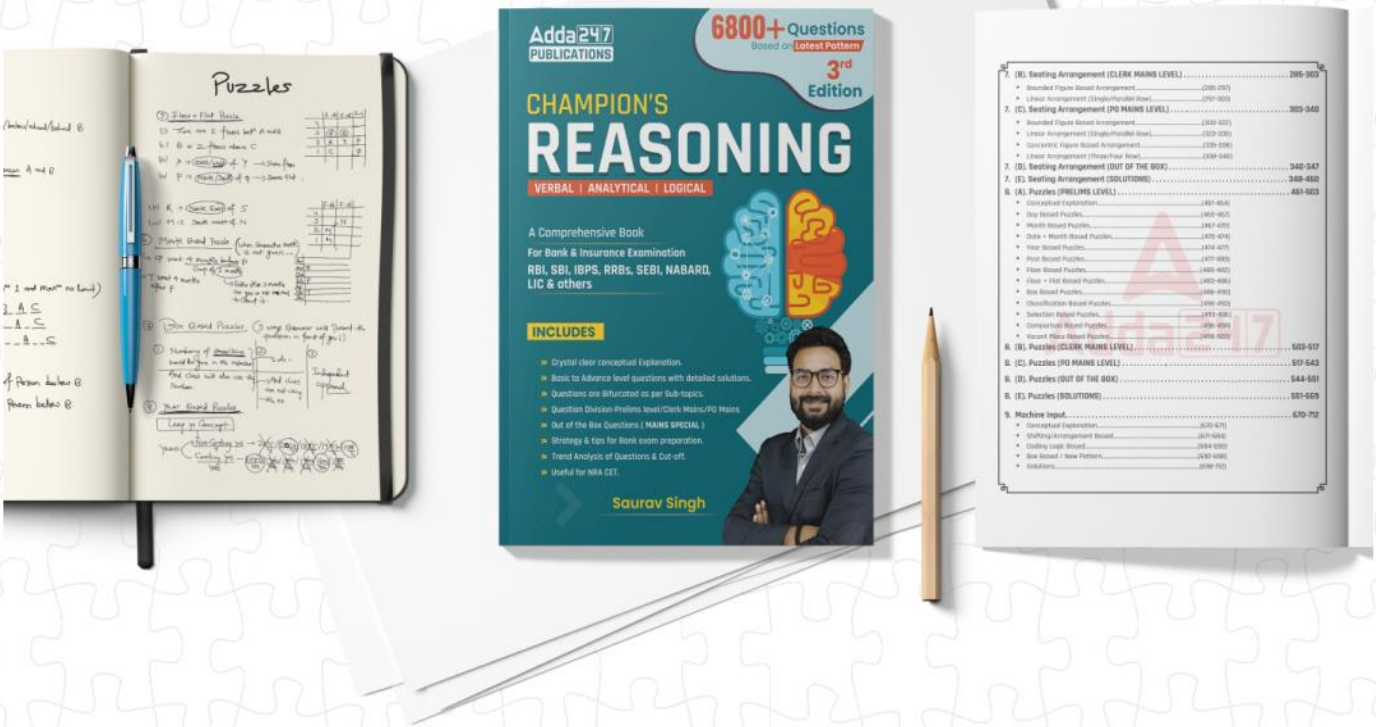
RRB Clerk Mains

BY SAURAV SINGH

CHAMPION'S REASONING 3.0

THIS BOOK INCLUDES

- Crystal clear conceptual Explanation.
- Questions are Bifurcated as per Subtopics.
- Question Division-Prelims Level/Clerk Mains/PO Mains
- Basic to Advance level questions with detailed solutions.
- Strategy & tips for Bank exam preparation.
- Trend Analysis of Questions & Cut-off.
- Out of the Box Questions.



This Book Is Helpful For Both **Prelims** As Well As Your **Mains** Exam Preparation.

A MESSAGE TO STUDENTS

Champions! The Most Crucial Months Are Here…
The upcoming months are going to decide the future of every banking aspirant. With **IBPS Clerk & SBI Clerk (Prelims & Mains) both the phases, IBPS/SBI PO (Mains) phase and of course other major bank exams** are also lined up, this is the time to give your **best shot**.

And we know that, Practice is the bridge between preparation and success.
It is not enough to just learn concepts—you must repeatedly apply them under pressure. Every practice session builds your **speed, accuracy, and presence of mind**, while also reducing exam-day anxiety. Just like a player sharpens skills through daily training before the big match, a banking aspirant must sharpen reasoning, quant, and English through **relentless and structured practice**. The more you practice, the more familiar patterns become, and the more confident you feel when facing new challenges in the exam hall.
Remember: –
📌 *Knowledge* can get you started, but only **consistent practice** turns you into a real achiever.
📌 Practice is not just solving questions, it's about building **speed, accuracy, and confidence**.
📌 Every hour of smart practice today becomes a **step closer to your selection** tomorrow.

And to make your practice even more result-oriented, I'm introducing three powerful add-ons in your updated Rank File:
1️⃣ **Time-Based Miscellaneous Bundled Set –** Carefully designed mixed-topic sets with a timer to replicate real exam pressure, training you to think fast and act smart.
2️⃣ **Timer in Seating + Puzzle File –** Every seating arrangement and puzzle now comes with a built-in timer, ensuring you sharpen your speed, accuracy, and decision-making just like in the actual exam.
3️⃣ **3 Days Mains Files –** Special mains-oriented practice files every 3 days to help you cope with the upcoming PO Mains exam with consistency and confidence.

🎯 Champions, this is not just an update, it's your **weapon to beat the cut-off and secure your seat**. Now it's your turn—make every practice count! 🚀

All The Best Champions
Blessings

Directions (1-2): Read the following information's carefully and answer the questions given below

If A @ B means A is neither greater than nor equal to B.
A $ B means A is neither smaller than nor equal to B.
A & B means A is not smaller than B.
A % B means A is neither greater than nor smaller than B.
A # B means A is not greater than B.
In the following question the relationship between different elements are given in the statements followed by two conclusions I and II. Read the statements carefully and mark your answer accordingly.

1. **Statements: K&L$M @C # D, D @ G # F**
   Conclusions:
   I. K $ D
   II. M @ F
   (a) Only Conclusion I is true
   (b) Only Conclusion II is true
   (c) Both Conclusion I and II are true
   (d) Neither Conclusion I nor II is true
   (e) None of the above

2. **Statements:T#U#V @ W $ X, X & Y % Z**
   Conclusions:
   I. Z % V
   II. Z @ W
   (a) Only Conclusion I is true
   (b) Only Conclusion II is true
   (c) Both Conclusion I and II are true
   (d) Neither Conclusion I nor II is true
   (e) None of the above

3. **What should come in the place of question mark, in the given expressions to make 'A>B' always true?**
   A = C_?_ D > E_? _ F ≥ B
   (a) >, ≤ (b) ≥, <
   (c) ≤, > (d) ≥, ≥
   (e) Both (c) or (d)

Directions (4-6): Read the following information's carefully and answer the questions given below

In the question below some statements are given followed by four conclusions I, II, III, and IV. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusion definitely follows from the given statements, disregarding commonly known facts.

4. **Statements:**
   Only Bowl are Container
   No Cup are Bowl
   Only a few Cup are Basket
   Conclusions:
   I. All Cup being Basket is not a possibility
   II. No Cup are Container
   III. Some Basket are not Container
   IV. Some Basket being Bowl is not a possibility
   (a) Only Conclusion I, II, and III follow
   (b) Only Conclusion II, III and IV follow
   (c) Only Conclusion I, III and IV follow
   (d) Only Conclusions II and III follow
   (e) Only Conclusion III and IV follow

5. **Statements:**
   All Street are Road
   Some Road are Lane
   Only a few Lane are Narrow
   Conclusions:
   I. Some Lane are not Narrow
   II. Some Street are Lane
   III. Some Lane are Road
   IV. All Narrow being Lane is a possibility
   (a) Only Conclusion I, II, and III follow
   (b) Only Conclusion II, III and IV follow
   (c) Only Conclusion I, III and IV follow
   (d) Only Conclusions II and III follow
   (e) Only Conclusion III and IV follow

6. **Statements:**
   Only Fruit are Guava
   70% Apple are Fruit
   All Grapes are Apple
   Conclusions:
   I. Some Guava are not Grapes
   II. No Apple are Guava
   III. Some Grapes are Fruit
   IV. All Fruit are Apple
   (a) Only Conclusion I, II, and III follow
   (b) Only Conclusion I, II and IV follow
   (c) Only Conclusion I, III and IV follow
   (d) Only Conclusions I and II follow
   (e) Only Conclusion III and IV follow

7. The question given below consists of three statements numbered I, II and III given below it. You have to decide which of the statements are redundant to answer the question. Read all the statements and give answer.

Seven persons (P, Q, R, S, T, U, and W) are of different weights. Which of the following statement is redundant to find who is the 3rd heaviest person?

Statement I: Only U and W are lighter than R. T is heavier than Q and S. P is heavier than T. S is heavier than Q.

Statement II: R is heavier than U, who is heavier than W. Q is the 4th heaviest person. P is immediate heavier than T, who is the 2nd heaviest person. S is heavier than R.

Statement III: P and W are the heaviest and the lightest person, respectively. S is heavier than Q and R, who is heavier than U.

(a) Only Statement I is redundant
(b) Only Statement II is redundant
(c) Only Statement III is redundant
(d) Only Statement II and III are redundant
(e) Only Statement I and II are redundant

8. The question given below consists of two statements numbered I and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statement and answer the question.

In a certain code language "how are you doing" is coded as "fox, gix, rux, jun", then what is the code for "doing" in the same code language?

Statement I: "how are you working" is coded as "fox, jun, gix, pue" in the same code language.

Statement II: "are you working continuously" is coded as "gix, jun, pue, rim" in the same code language.

(a) Data given in statement, I alone is sufficient to answer the question.
(b) Data given in statement II alone is sufficient to answer the question.
(c) Data given in either statement I or statement II alone is sufficient to answer the question.
(d) Data given in both statement, I and statement II together are sufficient to answer the question.
(e) Data given in both statement, I and statement II together are not sufficient to answer the question.

9. The question given below consists of two statements numbered I, and II given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read all the statement and answer the question.

Six boxes (M, N, E, F, X and Y) are kept above one another. The bottommost box is numbered as 1 and the topmost box is numbered as 6. How many boxes are kept above Box F?

Statement I: Only two boxes are kept below X. Two boxes are kept between X and E. Y is kept two places above M. F is not kept above Y.

Statement II: Y is 4th box. E is 6th box. M is kept one place above F. M is an even numbered box.

(a) Data given in statement, I alone is sufficient to answer the question.
(b) Data given in statement II alone is sufficient to answer the question.
(c) Data given in either statement I or statement II alone is sufficient to answer the question.
(d) Data given in both statement I and statement II together are sufficient to answer the question.
(e) Data given in both statement I and statement II together are not sufficient to answer the question.

Directions (10-14): Read the following information's carefully and answer the questions given below

In a certain code language:

Planet earth home wreck' is coded "#G, @S, #V, @P".

Survive many disaster daily' is coded "#I, #B, @B, @V".

Sudden leap toward growth' is coded "#S, #K, #W, #M".

Global warming threat severe' is coded "#O, @T, #G, #V".

10. "personal belonging" is coded as ___ in the same code language.

(a) @G, #O
(b) #G, @T
(c) #O, @T
(d) #T, @O
(e) None of the above

11. ____ is coded as "#V" in the same code language.

(a) bore
(b) bear
(c) bowl
(d) love
(e) Both (a) and (d)

FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

12. What is the code for "carpenter" in the same code language?
(a) @I (b) #I
(c) @R (d) #R
(e) None of the above

13. Which of the following word is coded as "@H"?
(a) rotate (b) working
(c) rickets (d) wire
(e) None of the above

14. "circulation" is coded as ___ in the same code language.
(a) #M (b) @N
(c) #N (d) @M
(e) None of the above

Directions (15-19): Read the following information's carefully and answer the questions given below

When a number and word arrangement machine is given an input line of numbers and words it arranges them following a particular rule. The following is an illustration of input and rearrangement.

Input: rainbow 36 naturals 48 occur 67 severe 49 time 32

Step I: naturals 23 rainbow 36 48 occur 67 severe 49 time

Step II: rainbow 63 naturals 23 48 occur 67 severe 49 time

Step III: severe 84 rainbow 63 naturals 23 occur 67 49 time

Step IV: occur 94 severe 84 rainbow 63 naturals 23 67 time

Step V: time 76 occur 94 severe 84 rainbow 63 naturals 23

And the step V is the last step of the rearrangement. As per the rules followed in the above step, find out each of the following questions the appropriate step for the given input.

Input: divine 45 steps 59 towards 86 creation 17 photograph 37

15. Which of the following is Step IV of the given input?
(a) divine 59 towards 54 creation 73 photograph 71 steps 86
(b) divine 95 towards 45 creation 73 photograph 71 steps 86
(c) divine 95 towards 54 creation 37 photograph 71 steps 86
(d) divine 95 towards 54 creation 73 photograph 71 steps 86
(e) None of the above

16. In which step of the given input, "steps 59 86" will occur in the same order after the rearrangement?
(a) Step II (b) Step III
(c) Step IV (d) Step V
(e) None of the above

17. ___ is 4th element from right end in Step IV of the given input.
(a) 71 (b) photograph
(c) 73 (d) steps
(e) None of the above

18. What is the absolute difference between 2nd number from the right end and 2nd number from the left end in Step III of the given input?
(a) 13 (b) 27
(c) 17 (d) 14
(e) None of the above

19. Which element is 3rd to the left of 5th element from the left end in Step V of the given input?
(a) 95 (b) steps
(c) divine (d) 68
(e) None of the above

Directions (20-24): Read the following information's carefully and answer the questions given below

Eight persons (A, B, C, D, E, F, G, and H) were born in eight different years (1980, 1981, 1983, 1988, 1992, 1996, 2000, and 2001) but not necessarily in the same order. Some of the persons like different colours.

Note: Consider all persons were born on 31st December in the given years. Ages of these persons are calculated with respect to 31st December 2021.

H was born four years after B. E, who likes green, was born was born immediately after H. C was born immediately before F. Two persons were born between G and A, who likes pink. Three persons were born between D and the person, who likes yellow. Three persons were born between E and F, who likes red. Neither A nor C was born in a leap year.

20. Which of the following person was born in a non-leap year?
(a) D (b) H
(c) B (d) G
(e) E

FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

21. ___ is eight years elder than ___.
(a) C, G (b) H, E
(c) D, F (d) G, D
(e) None of the above

22. How many persons were born between E and the person, who likes yellow?
(a) Five (b) One
(c) Two (d) Three
(e) Four

23. D was born in____.
(a) 1981 (b) 1980
(c) 1983 (d) 2001
(e) None of the above

24. If the person, who likes Silver, was born immediately before the person, who likes White, then, how many persons were born between A and the person, who likes Silver?
(a) Two (b) Three
(c) None (d) One
(e) None of the above

Directions (25-29): Read the following information's carefully and answer the questions given below

Eight persons (Arun, Akhila, Era, Usha, Golu, Suman, Karun, and Kapoor) sit around a circular table but not necessarily in the same order. Persons, whose initials start with a vowel (as per English alphabetical series), face away from the center while remaining persons face towards the center of the table. No two adjacent persons face in the same direction. Four among these persons like different cars (Honda, Kia, Maruti and Fiat).

Golu sits 3rd to the left of Arun. Era sits immediate left of Suman. Usha sits adjacent to the person, who sits immediate right of Era. The person, who likes Kia, faces towards the center. The person, who likes Maruti, sits immediate right of the person, who likes Kia. One person sits between Usha and Akhila. (from either side of the table). The person, who likes Honda, sits adjacent to Usha. Karun, who likes Fiat, doesn't sit adjacent to Akhila. Kapoor doesn't like Kia.

25. ____ sits 2nd to the right of Akhila.
(a) Usha (b) Era
(c) Arun (d) Both (c) and (e)
(e) The person, who likes Maruti

26. How many persons sit between Usha and Suman, when counted from the right of Usha?
(a) Two (b) None
(c) Six (d) Four
(e) Cannot be determined

27. Usha sits immediate left of____.
(a) Kapoor
(b) Karun
(c) Golu
(d) The person, who likes Honda
(e) Both (c) and (d)

28. ____ and ____ sit adjacent to the person, who sits 2nd to the right of Kapoor.
(a) Akhila, Era (b) Era, Usha
(c) Usha, Akhila (d) Akhila, Arun
(e) Era, Arun

29. What is the position of Karun with respect to the person, who likes Kia?
(a) 4th to the left (b) 2nd to the left
(c) 2nd to the right (d) Either (a) or (b)
(e) Either (b) or (c)

30. If we add 1 to all the even digits of the number 582867443546, and then arrange all the digits in ascending order from the left end, then what will be the sum of the last four digits from the right end after the rearrangement?
(a) 16 (b) 17
(c) 23 (d) 26
(e) None of the above

FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

Solutions

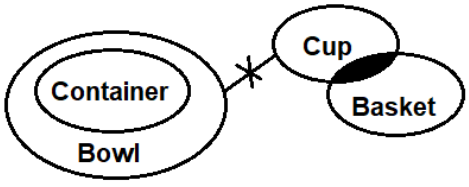
Solutions (1-2)

1. (b)
Given statements:K & L$M @C # D, D @ G # F
On replacing symbol with the signs, we get:
K ≥ L>M <C ≤ D, D < G ≤ F
On combining the given statements, we get:
K ≥ L>M <C ≤ D < G ≤ F
Conclusions:
I. K $ D means K > D: False (As K ≥ L>M <C ≤ D, so the relationship between K and D can't be determined).
II. M @ F means M < F: True (As M < C ≤ D < G ≤ F, so M < F).
Only conclusion II is true.
Hence, option b.

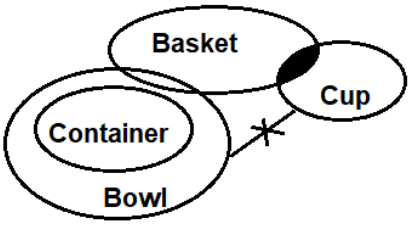
2. (b)
Given statements:T#U#V @ W $ X, X & Y % Z
On replacing symbol with the signs, we get:
T≤U≤V < W > X, X ≥ Y = Z
On combining the given statements, we get:
T≤U≤V < W > X ≥ Y = Z
Conclusions:
I. Z % V means Z = V: False (As V < W > X ≥ Y = Z, so the relationship between V and Z can't be determined).
II. Z @ W means Z < W: True (As W > X ≥ Y = Z, so Z < W).
Only conclusion II is true.
Hence, option b.

3. (d)
Given expression:
A = C ≥ D > E_? _ F ≥ B
On putting the symbol given in option (a) in the inequality, we get (A = C > D > E ≤ F ≥ B), it doesn't satisfy the given condition.
On putting the symbol given in option (b) in the inequality, we get (A = C ≥ D > E < F ≥ B), it doesn't satisfy the given condition.
On putting the symbol given in option (c) in the inequality, we get (A = C ≤ D > E > F ≥ B), it doesn't satisfy the given condition.
On putting the symbol given in option (d) in the inequality, we get (A = C ≥ D > E ≥ F ≥ B), it satisfies the given condition.
Hence, option d.

4. (a)
We draw the following figure:

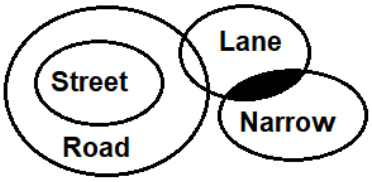


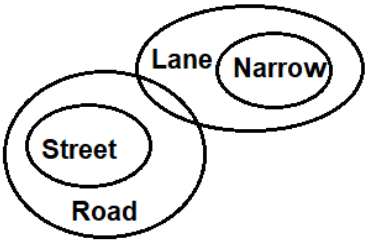
FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel



From the figure we get only conclusions I, II and III follow.
Hence, option a.

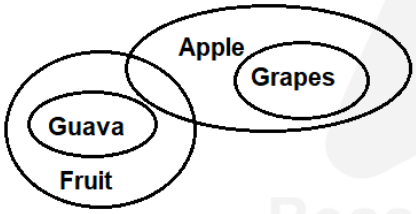
5. (c)
We draw the following figure:





From the figure we get only conclusions I, III and IV follow.
Hence, option c.

6. (d)
We draw the following figure:



From the figure we get only conclusions I and II follow.
Hence, option d.

7. (c)
From statement I alone: Only U and W are lighter than R. T is heavier than Q and S. P is heavier than T. S is heavier than Q, we get:
P > T > S > Q > R > U/W > W/U
S is the 3rd heaviest person.
From statement II alone:R is heavier than U, who is heavier than W. Q is the 4th heaviest person. P is immediate heavier than T, who is the 2nd heaviest person. S is heavier than R, we get:
P > T > S > Q > R > U > W
S is the 3rd heaviest person.
From statement III alone: P and W is the heaviest and the lightest person respectively. S is heavier than Q and R, who is heavier than U, we get:
We have multiple possibilities for the 3rd heaviest person.
Only Statement III is redundant.
Hence, option c.

Reasoning By Saurav Sir

SUBSCRIBE Champion's Reasoning YouTube Channel

8. (a)
From Statement I alone:"how are you working" is coded as "fox, jun, gix, pue", we get:
The code for "doing" is "rux".
From Statement II alone:"are you working continuously" is coded as "gix, jun, pue, rim", we get:
The code for "doing" is either "rux" or "fox".
The data given in statement I alone is sufficient to answer the question.
Hence, option a.

9. (c)
From Statement I alone:Only two boxes are kept below X. Two boxesare kept between X and E. Y is kept two places above M. F is not kept above Y, we get:

Box Number	Boxes
6	E
5	N
4	Y
3	X
2	M
1	F

Five boxes are kept above Box F.
From Statement II alone: Y is 4th box. E is 6th box. M is kept one place above F.
M is an even numbered box, we get:

Box Number	Boxes
6	E
5	N/X
4	Y
3	X/N
2	M
1	F

Five boxes are kept above Box F.
The data given in either statement I or statement II alone is sufficient to answer the question
Hence, option c.

Reasoning By Saurav Sir

Solutions (10-14)

Symbols are coded as:
If the number of letters in the word is:
(a): Odd, then it will be coded as (@).
(b): Even, then it will be coded as (#).
Alphabets are coded as:
The reverse alphabet of the last alphabet from the left end as per the English alphabetical series.

A	B	C	D	E	F	G	H	I	J	K	L	M
Z	Y	X	W	V	U	T	S	R	Q	P	O	N

Ex- 'planet' is coded as '#G'
Total number of letters is '6', so symbol is #.
The last alphabet from the left end is 'T'.
So, reverse alphabet of 'T' is 'G'
So, the code for 'planet' is '#G'.
Ex- 'wreck' is coded as '@P'

FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

Total number of letters is '5', so symbols is @
The last alphabet from the left end is 'K'.
So, reverse alphabet of 'K' is 'P'
So, the code for 'wreck is '@P'.

10. (c) 11. (e) 12. (a) 13. (c) 14. (d)

Solutions (15-19)

In each step, words and numbers are arranged from extreme left end: (First word followed by number).
Words: Words are arranged according to the total number of letters in the word. (From highest to lowest).
Number: Smallest number is written by interchanging the position of its digits. (i.e. if 36 is the smallest number, then it is written as 63).
Input: divine 45 steps 59 towards 86 creation 17 photograph 37
Step I: photograph 71 divine 45 steps 59 towards 86 creation 37
Step II: creation 73 photograph 71 divine 45 steps 59 towards 86
Step III: towards 54 creation 73 photograph 71 divine steps 59 86
Step IV: divine 95 towards 54 creation 73 photograph 71 steps 86
Step V: steps 68 divine 95 towards 54 creation 73 photograph 71
Step V of the given input after rearrangement:
steps 68 divine 95 towards 54 creation 73 photograph 71

15. (d) 16. (b) 17. (b) 18. (d) 19. (d)

Solutions (20-24)

From clue 1, we get H was born in 1992 or 1996 or 2000. B was born in 1988 or 1992 or 1996.
From clue 2, we get E was born in 1996 or 2000 or 2001.
From clue 3, we get F was born in 1981 or 1983 or 1988.
Case I: When B was born in 1988.

Years	Persons	Colours
1980		
1981	F	Red
1983		
1988	B	
1992	H	
1996	E	Green
2000		
2001		

Case II:When B was born in 1992.

Years	Persons	Colours
1980		
1981		
1983	F	Red
1988		
1992	B	
1996	H	
2000	E	Green
2001		

Case III:When B was born in 1996.

Reasoning By Saurav Sir

FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

Years	Persons	Colours
1980		
1981		
1983		
1988	F	Red
1992		
1996	B	
2000	H	
2001	E	Green

From clue 1 and clue 2, we reject Case I as we can't place C. C was born either in 1981 or 1983.
From clue 3, we reject Case II as we can't place A. A was born in 1981. G was born in 1992. D was born in 1980.
Case III:

Years	Persons	Colours
1980	D	
1981	A	Pink
1983	C	
1988	F	Red
1992	G	
1996	B	
2000	H	
2001	E	Green

From clue 1, we get G likes yellow.
The final arrangement is as follows:

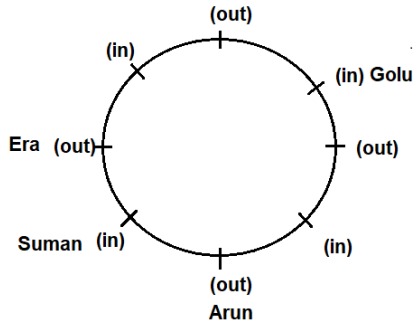
Years	Persons	Colours
1980	D	
1981	A	Pink
1983	C	
1988	F	Red
1992	G	Yellow
1996	B	
2000	H	
2001	E	Green

Reasoning By Saurav Sir

20. (e) 21. (c) 22. (c) 23. (b) 24. (b)

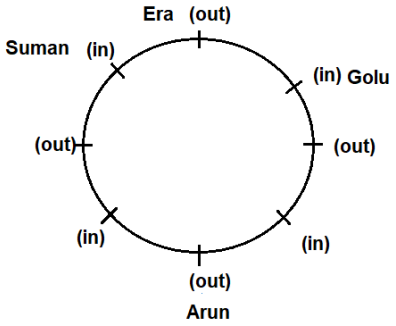
Solutions (25-29)

From clue 1 and clue 2, we get Suman sits either immediate right or 3rd to the right of Arun. Era sits either immediate right or 3rd to the right of Golu.
Case I: When Suman sits immediate right of Arun.

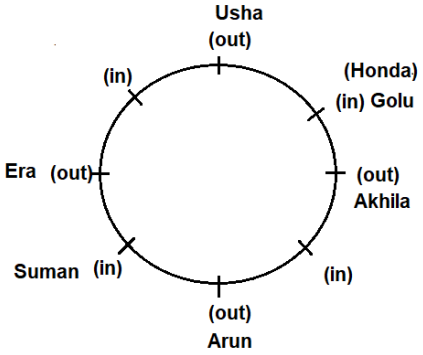


FOR RBI, SBI, IBPS, LIC, NABARD & OTHER BANK/INSURANCE EXAMS
SUBSCRIBE Champion's Reasoning YouTube Channel

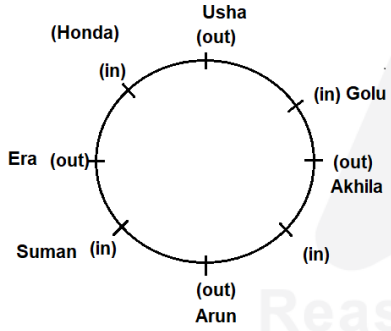
Case II: When Suman sits 3rd to the right of Arun.



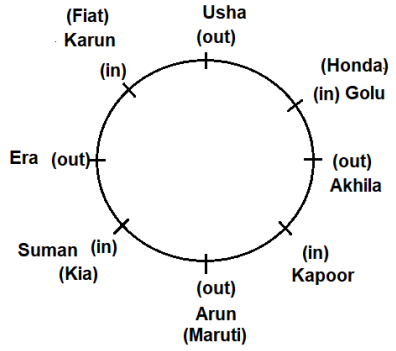
From clue 1, we get Usha sits either immediate right or immediate left of Golu.
From clue 2, we reject Case II as we can't place one person between Usha and Akhila. Akhila sits immediate left of Golu.
From clue 3, we get either Golu or the person, who sits immediate right of Era likes Honda.
Case II(a): When Golu likes Honda.



Case II(b): When the person, who sits immediate left of Arun likes Honda.



From clue 1, we reject Case II(b) as we can't place Karun. Kapoor sits immediate right of Akhila. Karun sits immediate left of Usha.
From clue 2, we get Suman likes Kia.
From clue 3, we get Arun likes Maruti.
The final arrangement is as follows:



25. (d) 26. (d) 27. (b) 28. (c) 29. (b)

30. (a)

Given number:

582867443546

After adding to 1 to all the even digits we get:

593977553557

After arranging all the number in ascending order from the left end, we get:

335555577799

The last four digits from the right end are (3, 3, 5 and 5).

Required sum = (3 + 3 + 5 + 5) = 16

Hence, option a.
